

Q	Marking Instructions	AO	Mark	Typical Solution
15	Identifies critical value = 0.549	1.1b	B1	<p><math>0.567 &gt; 0.549</math></p> <p>There is sufficient evidence that the larger the rainfall, the greater the yield.</p>
	Compares 0.567 correctly to their critical value chosen from the table	3.5a	M1	
	Makes correct inference eg there is sufficient/significant evidence that the larger the rainfall, the greater the yield/positive correlation <b>between</b> the two <b>FT</b> their critical value chosen from the table	2.2b	R1F	
	<b>Total</b>		<b>3</b>
