Notes:					
(a)  M1. Paclices the need to use the product rule and attempts first derivative					
M1: M1:		Realises the need to use the product rule and attempts first derivative  Realises the need to use a second application of the product rule and attempts the second			
		rivative			
M1:		orrect method for the third derivative			
A1*:	Obta	Obtains the correct $4^{th}$ derivative and links this back to $y$			
(b) B1:	Malz	Makes the connection with part (a) to establish the general pattern of derivatives and			
<b>D1</b> .		inds the correct non-zero values			
M1:	Correct attempt at Maclaurin series with their values				
A1:	Correct expression un-simplified				
A1:	Correct expression and simplified				
(c) M1: Generalising, dealing with signs, powers and factorials					
A1:	Correct expression
