

Question			Answer	Marks	AO	Guidance	
8			$-4 + 5p - 6 = 0 \Rightarrow p = 2$	B1	1.1	Correct value $p = 2$ stated	
			$2p - 3q - 13 = 0$ and $p = 2 \Rightarrow q = \dots$	M1	1.1	Equating i -components to zero and using their numerical p to find q	
			$q = -3$	A1	1.1		
				[3]
